

April 15, 2015

Greetings,

This will be the fourth year OPC is donating seed potatoes to elementary school garden programs. Please consider making a seed potato contribution within the next couple of weeks.

Some Gardens were more successful than others.

The best schools built curriculum around the harvest. They read books about how potatoes grow and served up fresh roasted spuds to the delight of all the children involved.

This little guy couldn't get enough. He said "I could eat these breakfast, lunch and dinner."

Last year OPC donated seed to Tualatin Elementary, Beach Elementary, Chapman Elementary, Bethlehem House of Bread Garden, Valley Catholic School, Madison High School, Creative Science School and five Oregon Food Corps gardens that bring children from local schools in for weekly activities and tours. Every small seed donation is appreciated.

Thank you
